ISOpro

Benefits of ISOPro for GRC / HSEQ Management

Why is ISOPro different to other systems?

ISOPro recreates YOUR existing governance, risk and compliance (GRC) or HSEQ management system:

01

Minimizing disruption and change management

02

Built in "PLAN, DO, CHECK, ACT" functionality

03

Easy to make changes as your system evolves

What are the benefits of ISOPro GRC/HSEQ software?

Going online means more informed and better decision-making as a result of:

✓ **Real time data removes reporting delays**

✓ **Enforced business rules**

✓ **Visibility across multiple departments & sites**

✓ **Processes become automated reducing administrative load**

Who benefits, and how?

SENIOR MANAGEMENT

- ▶ Full visibility of compliance performance across the organisation

- ▶ Customised reports on demand and sent straight to your inbox

- ▶ "People can run but they can't hide" … enforces accountability across the organisation

COMPLIANCE HSEQ MANAGERS

- ▶ Easy document control and records management

- ▶ Activity scheduling

- ▶ Exception reports - if something goes wrong or if someone's not doing what they should be

- ▶ Traceability of actions

- ▶ Easy audit planning and follow through

- ▶ Tracking and reporting of open issues

- ▶ Intuitive and easy to train system

OPERATIONS MANAGERS

- ▶ Reminders and alerts

- ▶ Email notifications of real time issues direct to your inbox

- ▶ Easy to track open actions

- ▶ Daily summary reports to help with oversight and control and operation-specific reporting

FRONTLINE STAFF

▶ No paperwork, and no double handling of data re-entry.

▶ Reminders and prompts

▶ Intuitive interface

▶ Minimal change management

▶ Immediate access to relevant policies, procedures, guidelines etc in all formats.

▶ Able to take photographs and upload them straight to your reports - a picture paints a thousand words!

▶ *Ability to work offline on site on mobile devices (smartphones, iPads etc.)*
